

destroyed by fire in 1983, Jack promised to rebuild and put the 200 employees back to work quickly. He kept his promise. In 6 weeks, the plant was back in full production with full employment. In the two decades that followed, Jack's superior management skills enabled Positronic to flourish in an unpredictable economic environment.

At the same time, Jack gave his time and energy to benefit those following in his manufacturing legacy. During his service on several boards and agencies, he has offered the government invaluable advice on policy and practices. Over the course of his career, Jack has served as a Technical Advisor on Electromechanical Components for Electronic Equipment to the International Electrotechnical Commission, which sets worldwide standards for electronic equipment, and as the Secretariat of the International Electrotechnical Commission committee. In addition, he has been appointed to the Industry Sector Advisory Committee, which establishes policy for imports and exports for electronic components and was chairman of the Rectangular Connector Committee for the Electronic Industries.

Jack Gentry is a member of the President's Council of the National Association of Manufacturers and a strong advocate for American goods in the international market. He will be honored for his work and leadership by the Southwest Area Manufacturers Association on February 18, 2004, and awarded lifetime honorary membership in SAMA as President Emeritus.

These honors are a fitting tribute to Jack Gentry's untiring effort to advance manufacturing, expand markets and improve the economies of southwest Missouri and the United States.

HONORING KOINONIA FOSTER HOMES, INC.

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 10, 2004

Mr. RADANOVICH. Mr. Speaker, I rise today to honor Koinonia Foster Homes, Inc., for their hard work and dedication on behalf of thousands of children and families who are in need of their services. A great example of their efforts will be taking place as they sponsor a community-wide, interdenominational Honorary Pastors and Wives Luncheon on February 17th in Fresno, CA.

In 1982, Koinonia Foster Homes, Inc., was founded by Miriam Golden who had previously fostered over 37 abused and neglected children in addition to raising her own four natural children. "Koinonia" is a Greek word that means to communicate relationship and fellowship, which entails that their staff and foster parents relate to children from a position of trustworthiness, dependability and a deep moral commitment. Koinonia Foster Homes is a State-licensed, nonprofit organization that works in cooperation with county social service agencies that remove children from their homes due to abuse and neglect and then refer them to Koinonia for placement in a foster home. Once referred to the program, Koinonia places these children in agency-certified homes where they receive love and guidance from caring, committed and trained foster

families, as well as therapeutic services provided by master's-level social work staff.

Koinonia Foster Homes' mission is to provide the highest quality treatment foster care program available for children, youth and their families. Regional offices throughout California and Nevada support over 1,000 foster children, utilizing approximately 500 certified foster families. Koinonia's largest program is its Therapeutic Foster Care Program which provides treatment-based foster care to children between the ages of birth through 18 years of age who have been removed from their homes. Other programs include Residential Group Homes, The Crisis Resolution Center, The Day Treatment Program, and Bridgehaven which is a co-ed transitional housing program for youth ages 18–20. Koinonia Foster Homes is regarded as a leader in the care of at-risk children and the recruitment of new foster homes.

Mr. Speaker, I commend Koinonia Foster Homes, Inc., for the hope and compassion that they have provided for our children and communities. I urge my colleagues to join me in wishing them many years of continued success.

GLOBAL CLIMATE CHANGE

HON. JOHN W. OLVER

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 10, 2004

Mr. OLVER. Mr. Speaker, I would like to submit for the RECORD and draw my colleagues' attention to the attached statement that was recently issued by a bipartisan group of 156 mayors from across the country regarding global climate change. These mayors represent more than 46 million people in local communities ranging in size from 700 people in LaConner, Washington, to more than 4 million in Houston, Texas. The mayors state: "Mayors from across the U.S. are concerned about the impacts of global warming on our communities. Many of us are actively pursuing reductions at the municipal level, but know it will take leadership at the national level to slow the rate of global warming. We urge the Federal Government to focus attention and policy efforts on this critical issue."

I encourage my colleagues to read the attached statement in its entirety. The mayors' statement serves as a reminder that Congress must get serious about addressing greenhouse gas reductions to minimize the impact of global warming already felt across our country. I look forward to working with my colleagues to address this important issue.

U.S. MAYORS' STATEMENT ON GLOBAL WARMING 2003

Mayors from across the U.S. are concerned about the impacts of global warming on our communities. Many of us are actively pursuing reductions at the municipal level, but know it will take leadership at the national level to slow the rate of global warming. We urge the Federal Government to focus attention and policy efforts on this critical issue.

Global warming poses significant threats to communities across the country. We are already feeling impacts in the form of heat waves, shrinking water supplies and snow pack, increased rates of asthma, floods and storms, and coastal erosion.

The scientific community is very clear in its warning—we must act now to signifi-

cantly reduce greenhouse gas emissions below current levels or we will quickly reach a point at which global warming can not be reversed. This issue requires an effective response from the U.S. Federal Government.

Many local governments across the country have made it a policy priority to reduce greenhouse gas emissions. As mayors, we know that actions that promote energy conservation and efficiency, sustainable transportation (such as expanded mass transit, alternative fuel vehicles, and bike and pedestrian safety amenities) and reduce solid waste also reduce greenhouse gas and criteria pollutants emissions and bring a host of benefits to our communities. These actions reduce financial waste for local governments, businesses and citizens; they make our communities more livable; they increase spending and economic investment in our communities; and they increase the quality of life for current and future generations.

In addition to these benefits, two other reasons have recently emerged that put reducing greenhouse gas emissions at the top of the policy priority list. The first is energy security. Switching to cleaner energy sources, practicing conservation and maximizing energy efficiency will ease U.S. dependence on foreign fossil fuel-based energy, and at the same time improve local air quality and public health.

The second driver is the simple fact that the people in our communities are calling on us as elected leaders to address global warming. A public mandate is emerging in cities and towns across the country calling for governments at all levels to protect the global climate.

As Mayors responsible for the well being of our communities, we urge the federal government to maintain, enhance and implement new domestic policies and programs that work with local communities to reduce global warming pollution.

Initial Signatories: Mayor James Garner, Hempstead NY; Mayor Ed Garza, San Antonio TX; Mayor R.T. Rybak, Minneapolis MN; Mayor Vera Katz, Portland OR; Mayor Dick Murphy, San Diego CA.

STATEMENT SIGNATORIES

Name	City and state	Population
Dan Coody	Fayetteville, AR	58,047
